Continuous Assessment Quizzes

How the quizzes run

Enterprise Cyber Security

Continuous Assessment

Your design

- The design responds to the **Assessment Design Survey**.
- Worth **10%** of the course grade.

Continuous Assessment

At a glance

Feature	Design
Content	The previous week's lecture material
Cadence	One quiz a week, except the first week and assessment week
Window	Wednesday 11:00 to Friday 11:00
Length	10 questions in 20 minutes
Marking	1 mark per question, no negative marking
Counting	Best 5 of 8 quizzes

What the Quizzes Cover

What the Quizzes Cover

Lecture material

- Each quiz covers the **previous week's** lecture material.
- Questions range from **recall** of key concepts to short **scenarios** that apply them, such as:
  - describing deployment concerns
  - identifying threats
  - predicting legal and ethical concerns
- The weekly **research paper** is further reading. It is **not quizzed**.

Taking a Quiz

Taking a Quiz

When

- A quiz runs **every week** from the second week.
- There is **no quiz in assessment week**.
- Each quiz opens at **11:00 on Wednesday** and closes at **11:00 on Friday**.
- Open it at **any point in the window**. The 20-minute timer then starts.
- The quiz closes at 11:00 on Friday regardless. Start at 10:50 and you have **10 minutes**, not 20.

Taking a Quiz
On Moodle

- Each student receives a **random set** of 10 questions from a bank.
- The timer covers the **whole quiz**, so you can spend longer on harder questions.
- **One attempt**. Once opened, the quiz cannot be paused or restarted.
- Moodle **submits automatically** when time runs out. Answers are never lost.
- Review the previous week's lecture slides first, and set aside 20 minutes without interruption.

Practice Quiz

Try the format before it counts

- A **practice quiz** is on Moodle now. It is **not assessed**.
- You must **complete it** before you can access the first graded quiz.
- It uses the same settings as the graded quizzes.
- It **stays open**, so you can return to it at any time.

How the Quizzes Count

How the Quizzes Count

Best 5 of 8

- Only your **best 5** quizzes count. The other **3 are dropped**.
- Each counted quiz carries **2%** of the course grade.
- Marks from the counted quizzes are added, converted to a percentage, then mapped to a band.

Example	Q1	Q2	Q3	Q4	Q5	Q6	Q7	Q8	Result
Marks	**9**	7	0	**8**	**10**	6	**8**	**8**	43/50 = 86%

Bold marks are the best 5. Quiz 3 was missed and is one of the three dropped.

How the Quizzes Count

Missing a quiz

- A quiz is **submitted or not submitted**. There are no extensions and no late penalties.
- A missed quiz scores **zero** and is usually one of the three dropped.
- Extenuating circumstances claims apply to the **whole quiz component**, not to single quizzes.
- Opening any graded quiz counts as **attempting the whole component**. The practice quiz does not.

How the Quizzes Count

Feedback

- Your mark and the correct answers are released **after the window closes** at 11:00 on Friday.
- Holding feedback until then keeps the quiz fair for everyone still to take it.

How will you use the quizzes to keep up with the lecture material each week?
